

Integrations

This guide explains how to connect your various E-commerce stores to Nexae.

- Shopify
- Squarespace

Shopify

This guide goes through the process of connecting your Shopify store to Nexae. Once this has been set up, your Shopify orders will automatically be imported in to Nexae, ready for a shipping label to be generated.

Step 1) Press the integration button on the sidebar.

Step 2) Press the 'Add Integration' button and enter your Shopify store name or URL, e.g.

Enter your Shopify store name, i.e.:

https://[your-store-name].myshopify.com

Cancel

Confirm

Once entered, press '**Confirm**'.

Step 3) You will be prompted to log in to your Shopify account if you are not already. Once logged in, you will be able to go over the permissions we require to access your store. To continue with the integration press the "Install App".

Step 4) You will be redirected back to Nexae, if the integration was successful you will be able to see your Shopify store listed.

Update Shopify Store Settings

To update your store's settings on Nexae, first go to your Current Integrations and select the Pencil icon for your Shopify integration.

Shopify

Mail Handling International

mail-handling-international.myshopify.com

From within the Integration Settings page you will be able to alter the settings used by Nexae for your store.

IOSS Number:

United Kingdom

Custom UK Rate

Nothing selected

EU (European Union)

Standard International

Nothing selected

Express International

Nothing selected

Economy International

Nothing selected

Custom EU Rate

Nothing selected

Worldwide

Custom WW Rate

Nothing selected

IOSS Number will be required for some routes, add the IOSS number associated with your Shopify store within the settings page.

- Map your Shopify shipping rates within 'Settings' page under shipment rules, which will automatically convert your Shopify shipping rate in to a Nexae delivery stream. For more on this, click **here**.

Within the settings page, you will also be able to define the estimated delivery time and description for each delivery route, which will alter how the route appears on checkout:

Region Estimates					Add Another	
Country	Delivery Stream	Description	Minimum Estimated Delivery Days	Maximum Estimated Delivery Days		
France	Post DDP	France Delivery Description	5	8		

Post DDP

5 to 8 business days

France Delivery Description

£1.73

View Shopify Orders on Nexae

You can view your Shopify orders from within Nexae by going to the Integration Shipments page. Here, you will be able to print shipping labels, edit the address and track your shipments.

Squarespace

This guide goes through the process of connecting your Squarespace store to Nexae. Once this has been set up, your Squarespace orders will automatically be imported in to Nexae, ready for a shipping label to be generated.

Integrating Your Store

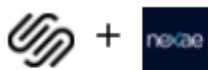

Step 1) Press the integration button on the sidebar.

Step 2) Press the '**Add Integration**' button and select the Squarespace option.

Step 3) You will be prompted to log in to your Squarespace account if you are not already. Nexae will request access to certain information, please ensure you read carefully. If satisfactory, then select '**allow**' and you will be re-directed back to your Nexae dashboard.

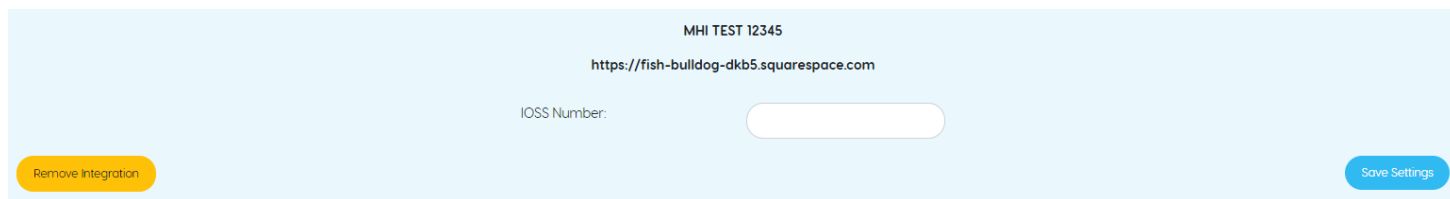

Install Nexae

Step 4) Once your store has connected to Nexae, it will display in a table on the '**Integrations**' tab. If at any point you want to edit or delete the integration, then you can do so by using the icons to right of the table.

Step 5) If your Squarespace store is registered with IOSS, then you can edit your integration and enter the 12 digit code where prompted. Please ensure the IOSS number is also listed in your **'Customs Info'** section in **'Settings'**

The screenshot shows a light blue settings panel. At the top, it displays 'MHI TEST 12345' and the URL 'https://fish-bulldog-dkb5.squarespace.com'. Below this is a label 'IOSS Number:' followed by a white input field. At the bottom left is a yellow 'Remove Integration' button, and at the bottom right is a blue 'Save Settings' button.

Step 6) Map your Squarespace shipping rates within **'Settings'** page under shipment rules, which will automatically convert your Squarespace shipping rate in to a Nexae delivery stream. For more on this, click **here**

Step 7) Please ensure your shipment settings in Squarespace is set to **metric measurements** as all Nexae shipments are processed in **Kg**. To do this go to **Settings > Language & Region > Regional Settings**. From here, select metric and select **'Save'**

Regional Settings

MEASUREMENT STANDARD

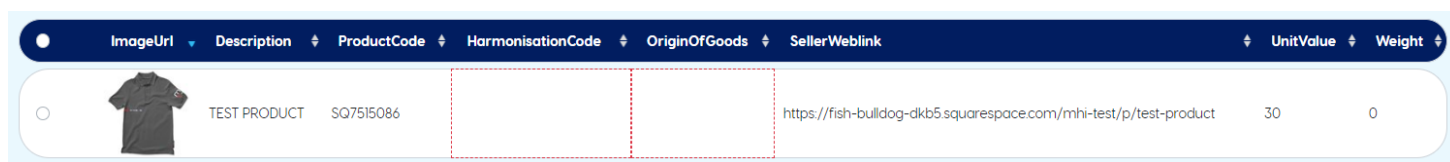

☐ Imperial

☒ Metric

If you sell physical products on your site, select the measurement standards for products weights and dimensions.

Squarespace Products

When you integrate your store with Nexae, it will automatically populate the **'Products'** page with products listed on your store. You also have the option to add products manually by clicking **'Add Products'** in the top right hand corner of the **'Products'** page.

The screenshot shows a table with a dark blue header and a light blue body. The header has columns: ImageUrl, Description, ProductCode, HarmonisationCode, OriginOfGoods, SellerWeblink, UnitValue, and Weight. The first row of data shows a product image, 'TEST PRODUCT', 'SQ75I5086', two empty dashed boxes for HarmonisationCode and OriginOfGoods, a URL for SellerWeblink, '30' for UnitValue, and '0' for Weight.

ImageUrl	Description	ProductCode	HarmonisationCode	OriginOfGoods	SellerWeblink	UnitValue	Weight
	TEST PRODUCT	SQ75I5086			https://fish-bulldog-dkb5.squarespace.com/mhi-test/p/test-product	30	0

When you initially integrate your Squarespace store with Nexae, you will need to add some extra details to the individual products listed in the table. This includes:

- The **harmonisation code**. If you don't know the correct commodity code then you can find it **here**

- The **Origin of Goods**. This is the country or region where the good was manufactured.

View Squarespace Shipments

You can view your Squarespace orders from within Nexae by going to the **'Integration Shipments'** page. Here, you will be able to print shipping labels, edit the address and track your shipments.
