

What is "Your Reference"?

The "Your Reference" field on both manual and bulk upload give you an opportunity to:

- Identify orders from the label: The reference field will be printed at the top-right of your CN22 on your label
 - **Example:** Mapping (or entering) a SKU code will be printed on label.
 - **Note:** You can stop printing reference on the label within settings. You'll still be able to use reference within Nexae.
- Act as a "**Tag**" for the shipment, so it can be easily identified within Nexae.
 - **Example:** "Daily Dispatch 20/03", "Returns 20/03"
